# STANDOFF INTENSIFIES US warns of sanctions over Iran's Hormuz toll

Says shipping firms to face ire if paying Iran to pass strait

ASSOCIATED PRESS  
Dubai, May 2

THE UNITED STATES is warning shipping companies that they could face sanctions for making payments to Iran to safely pass through the Strait of Hormuz. The alert posted Friday by the US Office of Foreign Assets Control adds another layer of pressure in the standoff between the US and Iran over control of the Strait of Hormuz. About a fifth of the world's trade in oil and natural gas typically passes through the strait at the mouth of the Persian Gulf in peacetime.

Iran effectively closed the strait to normal traffic by attacking and threatening to attack ships after the US and Israel launched a war on February 28. It later began offering some ships safe passage by detouring them through alternate routes closer to its shoreline, charging fees at times for the service. That "tollbooth" effort is the focus of the US sanctions warning.

The payment demands could include transfers not only in cash but also "digital assets, offsets, informal swaps, or other in-kind payments," including charitable donations and payments at Iranian embassies, OFAC said. "OFAC is issuing this alert to warn US and non-US persons about the sanctions risks of making these payments to, or soliciting guarantees from, the Iranian regime for safe passage. These risks exist regardless of payment method," it said. The US responded to Iran's closure of the strait with a naval blockade of its own on April 13, preventing any Iranian tankers from leaving and depriving Iran of oil revenue it needs to shore up its ailing

## PASSAGE OF RISKS

■ The warning came as US President Donald Trump swiftly rejected Iran's latest proposal to end the war between the two countries

**45** commercial ships have been told to turn around since the blockade began, said the US Central Command

## India-linked LPG tanker manages Hormuz exit

AN INDIA-LINKED tanker laden with liquefied petroleum gas has managed to transit the Strait of Hormuz, a rare crossing that underscores the country's struggle to alleviate an historic energy crisis.

The Marshall Islands-flagged Sarv Shakti — laden with around 45,000 tons of LPG, commonly used as cooking fuel — appeared to move into the Gulf of Oman

after sailing past Iran's Larak and Qeshm islands on Saturday, according to ship-tracking data. The very large gas carrier has previously made runs between the Persian Gulf and Indian ports and is broadcasting that it's heading to the country and has Indian crew, a safety measure frequently adopted by ships since the Iran war began. **BLOOMBERG**

economy. The US Central Command said 45 commercial ships have been told to turn around since the blockade began. The warning came as US President Donald Trump swiftly rejected Iran's latest proposal to end the war between the countries.

"They want to make a deal, I'm not satisfied with it, so we'll see what happens," Trump said Friday at the White House. He didn't elaborate on what he saw as its shortcomings but expressed frustration with the Iranian leadership. "It's a very disjointed leadership," Trump said. "They all want to make a deal, but they're all messed up." Iran's state-run IRNA news agency reported Iran handed

over its plan to mediators in Pakistan on Thursday night. The shaky three-week ceasefire between the US and Iran appears to be holding, though both countries have traded accusations of violations. The standoff is increasingly putting pressure on the global economy, driving up prices and leading to shortages of fuel and other products tied to the oil industry.

Negotiations continued by phone after Trump called off his envoys' trip to Pakistan last week, the president said. Trump this week floated a new plan to reopen the critical passageway used by America's Gulf allies to export their oil and gas.

# Air traffic is back to normal in UAE, Qatar to resume Iraq flights

AGENCIES  
May 2

THE AVIATION AUTHORITY of the United Arab Emirates has announced the full resumption of normal air navigation operations within UAE airspace and the lifting of temporary precautionary measures.

The decision was taken after a comprehensive evaluation of operational and security conditions and in coordination with relevant authorities, the General Civil Aviation Authority said. Continuous real-time monitoring remains in place to ensure the highest levels of aviation safety. The authority expressed its appreciation for the cooperation of passengers and airlines throughout the precautionary period and confirmed the readiness of its technical and operational teams to respond to any emerging developments. The public is advised to continue obtaining information from

## Spirit Airlines ceases ops

BANKRUPT DISCOUNT carrier Spirit Airlines shut operations on Saturday, the industry's first casualty linked to the Iran war, after failing to secure creditor support for a US government bailout plan.

The collapse of the carrier following a doubling in jet fuel prices during the two-month-old Iran war will cost thousands of jobs. Wind-down has to be orderly, the only way to do that is to do it all at once, Spirit Airlines CEO Dave Davis told *WSJ*. **REUTERS**

official sources. Meanwhile, Qatar Airways said it would resume passenger flights to Baghdad, Basra and Erbil airports in Iraq starting May 10.

# US TROOPS PULLBACK Europe must bolster defences: Germany

REUTERS  
Washington, May 2

A PLANNED DRAWDOWN of 5,000 US troops from Germany was expected, but should spur Europeans to strengthen their own defences, German Defence Minister Boris Pistorius said on Saturday, after Washington's latest salvo against transatlantic ties. The Pentagon announced the drawdown from Germany, its largest European base, on Friday, as a rift over the Iran war and tariff tensions place further strain on relations between the US and Europe.

Pistorius said the partial

## LEAVING BASE

■ The partial withdrawal would affect the US presence of almost 40,000 soldiers

■ The Pentagon said the withdrawal was expected to be completed over the next six to 12 months

withdrawal would affect a current US presence of almost 40,000 soldiers stationed there. As per the US Defense Manpower Data Center, 36,436 active service members were stationed in Germany as of December last year.

# Thyssenkrupp, Jindal pause talks on sale of steel unit

REUTERS  
Frankfurt, May 2

THYSSENKRUPP HAS PAUSED talks with Jindal Steel International about a possible sale of the German industrial group's steel unit, it said on Saturday, marking a setback for chief executive officer Miguel Lopez's restructuring efforts. Lopez has made major progress in recent years with turning Thyssenkrupp into a holding company, most notably by separately listing its hydrogen and warship divisions, but long-standing plans to divest the volatile steel business have proved more difficult to achieve.

While the companies did not provide a reason for why talks had ended, Lopez said in the statement that prospects for the steel business were "better than they have been in a long time", citing improved conditions across the continent. Jindal Steel International had made an indicative bid for Thyssenkrupp Steel Europe (TKSE) last year, leading to months of due diligence and negotiations on a potential pur-

## CHANGE OF PLAN

■ Europe's steel sector has been boosted by EU safeguard measures to better protect it against cheap Asian imports, after years of plant closures and job cuts

■ Thyssenkrupp said it would for now continue with TKSE's restructuring, confirming a medium-term goal to make the business independent

chase of what is Europe's second-biggest steelmaker. "The original assumptions and prerequisites for a potential sale of Thyssenkrupp Steel have significantly changed in recent months," Thyssenkrupp said in a statement, adding that the decision to halt the talks was mutual. Europe's steel sector has been boosted by European Union safeguard measures to better protect it against cheap Asian imports, essentially throwing the industry a lifeline after years of plant closures and job cuts.

As a result, the sector is set for a rebound and the first quarter

of 2026 could represent an inflection point, analysts have said, pointing to higher steel prices on the continent.

Narendra Misra, director of European operations at Jindal, said despite talks being paused, the groups "remain connected in friendship and our shared goal remains to work on building low-carbon steel production in Europe".

Thyssenkrupp said it would for now continue with TKSE's restructuring, confirming a medium-term goal to make the business independent and eventually retain a minority stake down the line.

# Berkshire's Q1 operating profit up 18%

REUTERS  
London, May 2

BERKSHIRE HATHAWAY ON Saturday reported a higher first-quarter operating profit, aided by gains in insurance and its other major operating segments. Profit from the Omaha, Nebraska-based conglomerate's dozens of businesses rose 18% to \$11.35 billion, or about \$7.891 per Class A share, from \$9.64 billion a year earlier.

Berkshire's cash stake ended March at a record \$397.4 billion. That reflected the company's years-long inability to find a major acquisition. It also sold \$8.1 billion more stocks than it bought in the first quarter. The quarter was the first under the helm of Greg Abel, who succeeded Warren Buffett in January. **REUTERS**

# OPEC+ set for oil quota hike despite Hormuz closure

REUTERS  
London, May 2

OPEC+ HAS AGREED in principle to raise oil output targets in June, two sources familiar with the group's thinking said on Saturday, but the increase will remain largely on paper as long as the US-Iran war continues to disrupt Gulf oil supplies.

Seven OPEC+ countries have an agreement in principle to raise oil output targets by about 188,000 barrels per day in June, the third consecutive monthly increase, pressing on with plans despite the war and the departure of the UAE from the group this week, the sources said ahead

Seven OPEC+ countries have an agreement to raise oil output targets by about 188,000 barrels per day in June

of a policy meeting on Sunday. With the UAE leaving, OPEC+ includes 21 members including Iran, but in recent years only the seven nations plus the UAE have been involved in monthly production decisions. The war, which began on February 28, and the resulting closure of Hormuz has throttled exports from Saudi Arabia, Iraq and Kuwait, as well as the UAE.
